The Sun's Reach

You may think you're made in the shade when you're sitting under an umbrella or a tree, but you still need sun protection. The sun's indirect and reflected ultraviolet rays can reach your skin and cause a sunburn, so wear sunscreen and reapply it every two hours.

Tasty Treat

What's pastel, fluffy, and a favorite treat at carnivals and fairs? Cotton candy, of course! Thousands got their first taste of the spun sugar snack when it was introduced at the 1904 World's Fair in St. Louis.

Popular Pages: 'The Greatest Generation'

Celebrated journalist and anchorman Tom Brokaw says he was inspired to write this best-selling book after interviewing American veterans for a D-Day documentary. Published in 1998, "The Greatest Generation" tells the stories of 50 men and women who came of age during the Great Depression and "answered the call to save the world" in World War II, whether fighting abroad or on the homefront. Brokaw explores how the courage and contributions of this generation built and transformed modern-day America.

Favorite Fathers

Among TV Guide's top picks for greatest TV dads of all time are Ben Cartwright of "Bonanza," Charles Ingalls of "Little House on the Prairie" and Philip Banks of "The Fresh Prince of Bel-Air."

Sniff Out Lemons to Boost Your Brain

Stop and smell ... the lemons! The citrusy scent may improve your mood and mental processing. When the daily crossword has you stumped or you need to concentrate on a task, researchers have found that a whiff of lemon can enhance cognitive performance by boosting the levels of the brain chemical norepinephrine. Lemony smells also made people feel better and more motivated and alert.

Wedding Dress Tradition

When Queen Victoria of England married Prince Albert in 1840, she made a daring choice and wore a white satin gown for her wedding ceremony. Until then, most brides dressed in red for their nuptials, but Victoria's example began a tradition that continues today.
