"This Month In History"

APRIL

1860: The first Pony Express rider leaves St. Joseph, Mo.

1908: Home to large sandstone pathways formed over time by flowing water, the Natural Bridges National Monument is established in southeast Utah.

1932: Dr. Charles Glen King, a chemistry professor at the University of Pittsburgh, isolates vitamin C from lemon juice. This breakthrough made it possible to accurately study the nutrient's properties and benefits in medicine.

1956: Daytime soap opera "As the World Turns" premieres on television. It was the first soap to have a half-hour runtime, rather than just 15 minutes.

1970: Almost 56 hours into a mission to the moon, Apollo 13 commander Jim Lovell reports to ground control, "Houston, we've had a problem." Days later, after a gripping rescue mission, millions around the world watched the spacecraft splash down safely in the Pacific Ocean.

1994: South Africa holds its first multiracial elections, with Nelson Mandela earning 62% of the popular vote to become the country's first Black president.

2010: Apple debuts its tablet computer, the iPad. Consumers purchased 300,000 units on the first day.

2021: A rare copy of "Action Comics #1," featuring the debut of Superman, sells for a record-breaking \$3.25 million.
