September is the ninth month of the year in the Julian and Gregorian calendars. It gets its name from the Latin word *septimus*, which means “seven,” because it was the seventh month of the year until 45 BC. September is generally considered to be the first month of autumn in the northern hemisphere. In Japan, September is called *kugatsu*, meaning “long moon.” Anglo-Saxons called this time *haligmonath*, which translates to “holy month”—a time to make sacrifices for the harvest.

“The breeze tastes of apple peel. The air is full of smells to feel—ripe fruit, old footballs, burning brush, new books, erasers, chalk, and such.”

John Updike
